

19st September 2022

Subject: Network Studies using ETAP

This is to certify that; we had appointed M/S Agile Technical & CONSULTANCY for providing Power System Studies for client via purchase order number "ENQ-ATC-02-2021". The services covered the scope/TORs in terms of,

- ETAP Modeling of Power sources
- ETAP Modeling of the Solar PV plant.
- Load Flow Study (3 cases: load, medium and high load with PV at high insolation)
 - Before PV injection
 - After PV injection
- Transient Stability Study (6 events)
 - Before PV injection
 - After PV injection
- Harmonics Study
 - Before PV injection
 - After PV injection
- Report on findings and recommendations

We are pleased to certify that the Power System Studies Services have been successfully completed by M/S Agile Technical & CONSULTANCY to our expectations.

Sincerely,

Adeel Naseer
Technical Director
ENERGENIQ

A circular blue ink stamp with the word "ENERGENIQ" repeated twice around the perimeter, separated by two small stars.
